SHOREBANK ENTERPRISE GROUP**

The Energy Industries Background

- Many basic industries make Ohio their home
- These benefit from Geography
 - low cost reliable power because of coal
 - Water Transport
- Very Important--provide a full range of jobs
- These industries are energy intensive
- These industries are under off-shore attack

Ohio's Energy Intensive Industries

- ❖ U.S. Department of Energy designated 9 Industries for R&D funding opportunities
- ❖ Use 25% of all Energy
- ❖ These are called “Industries of the Future”
- ❖ EIO formed to address their needs
- ❖ Currently implement Ohio's IoF program

- Steel
- Aluminum
- Metalcasting
- Mining
- Glass
- Chemicals
- Agriculture
- Paper/Forest Products
- Oil Refining
